<b>«Mathematics</b> »					
N⁰	Subject	Hours	Credits		
1	Ordinary differential equations	lecture 18, practice 18	1		
2	Origins of mathematical analysis	lecture 12, practice 12	2/3		
3	Vector analysis	lecture 12, practice 12	2/3		

«Field Operation Management»					
№	Subject	Hours	Credits		
1	Management of projects in the transport and logistics business	72	2		
2	Mathematical modeling of systems and processes	72	2		
3	The evolution of transport	72	2		

«Information systems and information security»				
№	Subject	Hours	Credits	
1	Software engineering	72	2	
2	Web development	72	2	
3	Web design	72	2	
4	Database Principles	72	2	
5	Database Design	72	2	
6	Database Application Development	72	2	
7	Database Administration	72	2	
8	Mobile applications	36	1	
9	Mobile development	36	1	
10	Informations system principles	72	2	
11	Informations system development	72	2	
12	Hiload systems	36	1	
13	Software Testing	72	2	
14	Software Documentation	36	1	
15	Software Quality Assurance	72	2	
16	Software Project Management	72	2	
17	Clouds Programming	36	1	
18	Requirements Management	72	2	
19	Unified Software Development Process	72	2	
20	Networking Basics	108	3	
21	Operation systems	108	3	
22	Linux programming	72	2	
23	Linux administration	72	2	
24	Social network development	36	1	

25	Business statistics	72	2
26	Software Innovation	36	1
27	Team development process	36	1
